

PUSHPAK PATIL

Highly Skilled AWS Solution Architect | Azure Expertise | Cloud Security & DevOps

Subject: Application for AWS Solution Architect Position – Driving Multi-Cloud Excellence

Dear Hiring Manager,

I am writing to express my profound interest in a Cloud Solution Architect role within your esteemed organization, particularly as I seek to contribute my expertise to the dynamic and technologically advanced market. With **4+ years** of dedicated experience as a Senior Cloud Engineer and Solution Architect, I possess a robust foundation in designing, securing, and optimizing large-scale, multi-cloud environments, with a specialization in **AWS** and practical experience in **Microsoft Azure**.

My career has been defined by delivering measurable, high-impact results for multinational clients in the financial and insurance sectors. For instance, I successfully led a critical cross-cloud migration of the GitHub Enterprise Server from **Azure to AWS** for RBL Bank, achieving a **45% performance improvement** and a **30% cost reduction** compared to the previous environment. Furthermore, my focus on efficiency and governance has driven significant financial benefits, including a documented **60% cost reduction** for HDBFS through automated compliance and resource rightsizing.

As a certified **AWS Solutions Architect** and **Security Specialist**, I am adept at architecting high-availability and disaster recovery solutions. A highlight of my work includes designing an **AI-Powered Automated DR Orchestration** solution (ATLAS) that achieved a **zero-touch failover** with an RTO under **10 minutes**, drastically improving business continuity. My expertise in AIOps, IaC (Terraform/CloudFormation), and compliance (PCI DSS, CIS) ensures that I can deliver secure, scalable, and fully automated infrastructure solutions from concept to production.

I am eager to bring this blend of technical depth, multi-cloud versatility, and proven architectural leadership to your team. My attached CV provides further detail on my experience and achievements. Thank you for your time and consideration. I look forward to the opportunity to discuss how my skills can directly support your strategic cloud initiatives in the global market.

Sincerely,

Pushpak Patil

AWS Certified Solutions Architect – Associate
AWS Certified Security – Specialty
